Human Resources News

Open Enrollment information available

This year's medical, dental and FSA Open Enrollment will be conducted from April 29th through May 17th. For more information and key plan changes, please review [this memo](#) from the Office of Group Insurance. Good news—insurance premiums will not be increased!

The State Controller's Office continues to support the Idaho Information Technology Resource Management Council's (ITRMC) proposed adoption of Internet Explorer as the statewide standard browser and currently supports Internet Explorer versions 7.0 and 8.0. Recognizing that ITRMC just approved Internet Explorer version 10 on April 2, 2013, the SCO does not anticipate supporting IE 10 until after ITRMC's six month review cycle is completed this fall.

The State Controller's Office is aware that IE 10 users are encountering several processing issues with some of the SCO web applications. With the expectation of processing errors, it has become necessary to block IE 10 access to specific SCO web applications at this time (IPOPS, I-Time, and Employee Self Service).

Beginning 04/26/2013, IE 10 users will receive the following message when attempting to access SCO web applications:

Internet Explorer 10 - Access Denied:

IE 10 users are encountering several critical processing errors within certain SCO Web applications (IPOPS, I-Time, and Employee Self Service). IE 10 access is being denied pending system modifications to correct the errors.

Per ITRMC's standards, the State Controller's Office currently supports IE 7 and IE 8. If you need assistance installing a compatible web browser, please contact your agency's IT department.

Be assured the SCO staff will be diligently working on any modifications needed to rectify the processing issues. Once we have successfully updated our applications to work with newer versions of Internet Explorer, we will notify you.

We also understand that employees may be using other browsers at work and home. Although some SCO web applications may allow access with other browsers, complete functionality is not guaranteed. Again, please remember that we currently support the above mentioned browsers.
